

# Energy performance certificate (EPC)

|   |                           |   |
|---|---------------------------|---|
| 10 Old Forge Manor<br>BELFAST<br>BT10 0HY | Energy rating<br><b>D</b> | Valid until: <b>5 February 2034</b>                 |
|   |                           | Certificate number: <b>0020-0218-7804-8605-5200</b> |

Property type: Detached house

Total floor area: 200 square metres

## Energy rating and score

This property's energy rating is D. It has the potential to be D.

[See how to improve this property's energy efficiency.](#)

| Score | Energy rating | Current | Potential |
|-------|---------------|---------|-----------|
| 92+   | A             |         |           |
| 81-91 | B             |         |           |
| 69-80 | C             |         |           |
| 55-68 | D             | 56 D    | 62 D      |
| 39-54 | E             |         |           |
| 21-38 | F             |         |           |
| 1-20  | G             |         |           |

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in Northern Ireland:

- the average energy rating is D
- the average energy score is 60

## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

| Feature              | Description                                | Rating    |
|----------------------|--|-----------|
| Wall                 | Cavity wall, filled cavity                 | Good      |
| Wall                 | Cavity wall, as built, insulated (assumed) | Good      |
| Roof                 | Pitched, 100 mm loft insulation            | Average   |
| Roof                 | Pitched, insulated (assumed)               | Good      |
| Window               | Fully double glazed                        | Average   |
| Main heating         | Boiler and radiators, oil                  | Average   |
| Main heating control | Programmer, room thermostat and TRVs       | Good      |
| Hot water            | From main system, no cylinder thermostat   | Poor      |
| Lighting             | Low energy lighting in all fixed outlets   | Very good |
| Floor                | Suspended, no insulation (assumed)         | N/A       |
| Floor                | Solid, limited insulation (assumed)        | N/A       |
| Floor                | Suspended, limited insulation (assumed)    | N/A       |
| Secondary heating    | Room heaters, mains gas                    | N/A       |

## Primary energy use

The primary energy use for this property per year is 180 kilowatt hours per square metre (kWh/m<sup>2</sup>).

► [About primary energy use](#)

## How this affects your energy bills

An average household would need to spend **£2,708 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £339 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

## Impact on the environment

This property's environmental impact rating is E. It has the potential to be D.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO<sub>2</sub>) they produce each year.

### Carbon emissions

**An average household produces** 6 tonnes of CO<sub>2</sub>

**This property produces** 8.9 tonnes of CO<sub>2</sub>

**This property's potential production** 7.6 tonnes of CO<sub>2</sub>

You could improve this property's CO<sub>2</sub> emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

# Changes you could make

► [Do I need to follow these steps in order?](#)

---

## Step 1: Increase loft insulation to 270 mm

Typical installation cost £100 - £350

Typical yearly saving £100

Potential rating after completing step 1

58 D

---

## Step 2: Hot water cylinder thermostat

Typical installation cost £200 - £400

Typical yearly saving £121

Potential rating after completing steps 1 and 2

60 D

---

## Step 3: Floor insulation (suspended floor)

Typical installation cost £800 - £1,200

Typical yearly saving £118

Potential rating after completing steps 1 to 3

62 D

---

## Step 4: Solar water heating

Typical installation cost £4,000 - £6,000

Typical yearly saving £89

Potential rating after completing steps 1 to 4

64 D

---

## Step 5: Solar photovoltaic panels, 2.5 kWp

Typical installation cost £3,500 - £5,500

Typical yearly saving £632

Potential rating after completing steps 1 to 5

70 C

---

## Help paying for energy improvements

You might be able to get a grant from the [Boiler Upgrade Scheme \(https://www.gov.uk/apply-boiler-upgrade-scheme\)](https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.

# Who to contact about this certificate

## Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

|                        |  |
|------------------------|--|
| <b>Assessor's name</b> | Ciaran Stuart                                      |
| <b>Telephone</b>       | 07764612066  |
| <b>Email</b>           | <a href="mailto:info@spsni.com">info@spsni.com</a> |

## Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

|                             |  |
|-----------------------------|--|
| <b>Accreditation scheme</b> | Quidos Limited   |
| <b>Assessor's ID</b>        | QUID208899   |
| <b>Telephone</b>            | 01225 667 570  |
| <b>Email</b>                | <a href="mailto:info@quidos.co.uk">info@quidos.co.uk</a> |
